Forward-Looking Statements and Non-GAAP Financial Information:

Our discussions during this conference call will include forward-looking statements. Actual results could differ materially from those projected in the forward-looking statements. Some of the factors that could cause actual results to differ are discussed in the Company's 2016 Annual Report on Form 10-K and in our 2017 reports on Form 10-Q and Form 8-K. These reports are available on our website at <http://investor.abm.com> under "SEC Filings". A description of other factors that could cause actual results to differ is also set forth at the end of this presentation.

Also, the discussion during this conference call will include certain financial measures that were not prepared in accordance with U.S. generally accepted accounting principles ("U.S. GAAP"). Reconciliations of those non-GAAP financial measures to the most directly comparable U.S. GAAP financial measures can be found on the Investor Relations portion of our website at <http://investor.abm.com> and at the end of this presentation.

New Segment Structure by Industry Group

REPORTABLE SEGMENTS AND DESCRIPTIONS	
B&I	B&I represents our largest reportable segment. It encompasses janitorial, facilities engineering, and parking services to commercial real estate industries, sports and entertainment venues, and industrial and manufacturing sites.
Aviation	Aviation includes services supporting airlines and airports. A wide array of services that support the needs of our clients are included in this segment, ranging from parking and janitorial to passenger assistance, catering, air cabin maintenance, and transportation. Aviation also includes one of our investments in an unconsolidated affiliate that was previously part of our government business under our legacy Building & Energy Solutions segment.
Emerging Industries Group	Our Emerging Industries Group encompasses janitorial, facilities engineering, and parking services for the Education, Healthcare, and High Tech industries, which have been combined into one reportable segment.
Technical Solutions	Technical Solutions provides specialized mechanical and electrical services. These services can also be leveraged for cross-selling within B&I, Aviation, and the Emerging Industries Group, both domestically and internationally.
Government Services	Our held-for-sale Government Services business provides specialty solutions in support of U.S. government entities, such as: construction management; healthcare support; leadership development; military base operations; and other mission support services.

Forward-Looking Statement

This presentation contains both historical and forward-looking statements. In this context, ABM Industries Incorporated (“ABM”) and its subsidiaries (collectively referred to as “ABM,” “we,” “us,” “our,” or the “Company”). We make forward-looking statements related to future expectations, estimates and projections that are uncertain, and often contain words such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “forecast,” “intend,” “likely,” “may,” “outlook,” “plan,” “predict,” “should,” “target,” or other similar words or phrases. These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties, and assumptions that are difficult to predict. For us, particular uncertainties that could cause our actual results to be materially different from those expressed in our forward-looking statements include: (1) changes to our businesses, operating structure, financial reporting structure, or personnel relating to the implementation of our 2020 Vision strategic transformation initiative; (2) unfavorable developments in our class and representative actions and other lawsuits alleging various claims; (3) increases in estimates of ultimate insurance losses; (4) challenges implementing our risk management and safety programs; (5) uncertainty in future cash flows; (6) challenges preserving long-term client relationships, passing through costs to clients, responding to competitive pressures, and retaining qualified personnel; (7) challenges in identifying, acquiring, and integrating businesses; (8) unexpected tax liabilities or changes in tax laws; (9) changes in energy prices or energy regulations; (10) deterioration of general economic conditions and reductions in commercial office building occupancy; (11) impairment of goodwill and long-lived assets; (12) changes in immigration laws or enforcement actions or investigations under such laws; (13) significant delays or reductions in appropriations for our government contracts; (14) failure of our joint venture partners to perform their obligations; (15) losses or other incidents at facilities in which we operate; (16) difficulty responding to cyber-security incidents and business interruptions; (17) liabilities associated with participation in multiemployer pension plans; (18) actions of activist investors; (19) operations in areas of military conflict; and (20) weather conditions, catastrophic events, and terrorist attacks. The list of factors above is illustrative and by no means exhaustive.

Additional information regarding these and other risks and uncertainties we face is contained in our Annual Report on Form 10-K for the year ended October 31, 2016 and in other reports we file from time to time with the Securities and Exchange Commission (including all amendments to those reports). We urge readers to consider these risks and uncertainties in evaluating our forward-looking statements. We caution readers not to place undue reliance upon any such forward-looking statements, which speak only as of the date made. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law.

A man in a blue shirt is seen from the back, looking out over a large, modern airport terminal. The ceiling is a complex, geometric structure with many white, angular panels. The floor is a polished, reflective surface. In the background, there are glass railings and other people walking. The overall atmosphere is bright and modern.

Adjusted income from continuing operations	\$ 27.8	\$ 17.7	\$ 49.3	\$ 39.3

^(a) The Company adjusts income from continuing operations to exclude the impact of certain items that are unusual, non-recurring, or otherwise do not reflect management's views of the underlying operational results and trends of the Company.

^(b) Represents adjustments to our self-insurance reserve for general liability, workers' compensation and automobile claims related to prior period accident years. Management believes these prior period reserve changes do not illustrate the performance of the Company's normal ongoing operations given the current year's insurance expense is estimated by management in conjunction with the Company's outside actuary to take into consideration past history and current costs and regulatory trends. Once the Company develops its best estimate of insurance expense premiums for the year, the Company fully allocates such costs out to the business leaders to hold them accountable for the current year costs within operations. However, since these prior period reserve changes relate to claims that could date back many years, current management has limited ability to influence the ultimate development of the prior year changes. Accordingly, including the prior period reserve changes in the Company's current operational results would not depict how the business is run as the Company holds its management accountable for the current year's operational performance. The Company believes the exclusion of the self-insurance adjustment from income from continuing operations is useful to investors by enabling them to better assess our operating performance in the context of current year profitability.

^(c) FY17 represents reimbursement of previously expensed legal and other costs incurred in connection with an internal investigation into a foreign entity affiliated with a former joint venture partner.

^(d) Represents costs for 2020 Vision Transformation Initiative, net of the reversal of certain share-based compensation costs.

^(e) FY16 amount includes costs related to a reserve established for an outstanding client receivable that is being litigated, and based on recent unfavorable developments, a significant portion of the outstanding receivable amount is no longer deemed collectible.

^(f) The Company's tax impact is calculated using the federal and state statutory rate of 41.5%, with the exception of an impairment recovery related to the Company's Government Services business, for which a 39.0% tax rate was applied. We calculate tax from the underlying whole-dollar amounts, as a result, certain amounts may not recalculate based on reported numbers due to rounding.
